Dear Sir/Madam,

Sub : Media Release - AbhiBus and Fleetx Partner to Bring AI-Powered Safety & Fleet Intelligence to Buses

Ref : Le Travenues Technology Limited (the "Company")

NSE Symbol: IXIGO and BSE Scrip Code: 544192

In compliance with the applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), please find enclosed media release - *AbhiBus and Fleetx Partner to Bring AI-Powered Safety & Fleet Intelligence to Buses.*

This is for your information and records.

Thank you,

For Le Travenues Technology Limited

Suresh Kumar Bhutani
(Group General Counsel, Company Secretary & Compliance Officer)

AbhiBus and Fleetx Partner to Bring AI-Powered Safety & Fleet Intelligence to Buses

Gurugram, India, 26th March 2026: AbhiBus (ixigo's bus business), one of India's leading online bus ticketing platforms, today announced a partnership with Fleetx, an AI-driven fleet intelligence platform, to introduce advanced video telematics and driver safety solutions across its bus operator network.

Through this collaboration, AbhiBus aims to strengthen passenger safety, improve operational visibility, and enhance driver accountability using Fleetx's AI-powered technology. The integration enables end-to-end visibility with multi-camera monitoring, 24x7 recording, and live streaming - even when buses are stationary. AI-driven alerts help detect risks such as driver fatigue, distraction, and unsafe driving, allowing timely intervention.

The partnership also features an AI-powered Control Tower, adding another layer of safety by triggering real-time alerts, enabling faster issue resolution, and supporting proactive monitoring. With driver behaviour analytics and historical insights, the platform is designed to continuously improve fleet performance and safety standards.

Speaking on this, **Rohit Sharma, COO, AbhiBus**, said, "*Passenger safety has always been central to what we do at AbhiBus, but real-time visibility and driver accountability have remained persistent gaps across the industry. With Fleetx's AI-powered video telematics, we now have the intelligence to move from reactive to proactive - detecting risks before they escalate, and ensuring every bus on our network meets the highest safety standards.*"

Vineet Sharma, Co-founder & CEO, Fleetx, also added, "*Fleet operations have often relied on fragmented systems and reactive safety measures. Our AI-powered video telematics enables real-time monitoring and proactive driver interventions. Together with AbhiBus and ixigo, we aim to set new benchmarks for safer and more transparent fleet operations at scale.*"

AbhiBus continues to prioritise traveller safety through sustained investments in technology-led solutions and trusted operator partnerships. Features like Bus Insights, 360-degree Bus View, and Pink Seat empower users to make informed decisions, while real-time tracking and AI-driven safety systems reinforce its commitment to building a safer, more reliable travel ecosystem for every passenger.

About AbhiBus
AbhiBus is a leading online bus-ticketing platform that aggregates ticket inventory from over 6,200 bus operators - including major State Road Transport Corporations (SRTCs), covering more than 6.5 lakh (650,000+) routes across India. The AbhiBus website and apps allow users to check amenities provided by bus operators, compare booking fares, check bus timings in the searched route, live tracking of the

bus before arrival, cancellation protection options and other facilities. It is the official ticketing partner for several state road transport corporation bus tickets and IRCTC bus bookings.

AbhiBus is owned and operated by **ixigo (Le Travenues Technology Limited)**, India's leading OTA for the Next Billion Users. With over 54 crore Annual Active Users in FY25, ixigo offers AI-powered train, flight, bus, and hotel bookings through its platforms - ixigo, ConfirmTkt, and AbhiBus.

About Fleetx
Founded in 2017, Fleetx is a leading AI-powered fleet and logistics optimization platform, built to help businesses digitize and streamline their physical operations. By leveraging the power of AI, IoT, and real-time data, Fleetx enables organizations to improve efficiency, enhance safety, and reduce operational costs through a unified platform. As one of India's leading driver and passenger safety solution providers, Fleetx has deployed over 10,000 AI-powered video dashcams across commercial fleets — delivering real-time incident detection, driver behaviour monitoring, and in-cabin safety visibility at scale. With a robust ecosystem of over 300 integrations, Fleetx has served more than 500,000 vehicles across India, tracked over 10 million trips annually, and processes more than 20 billion sensory data points every day, making it one of the most advanced and scalable solutions in the transportation and logistics industry.
