Dear Sir/Madam,

Sub.: Clarification under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

It has come to our knowledge that there are certain apprehensions about the shortage of commercial LPG in our plants as fuel, which may have impacted our production. In this connection, we wish to clarify that we use multiple sources of fuel – the main source being PNG (Piped Natural Gas) along with LPG in a very limited manner in our heat treatment process in various plants. There is absolutely no disruption in the availability of either PNG or LPG in any of our facilities and all our plants continue to operate normally. Further, we also wish to state that we are in the process of modifying our fuel system so as to also enable us to use LDO (Light Diesel Oil) also in addition to PNG and LPG.

This clarification is issued for the general information of all the concerned stakeholders in accordance with Regulation 30 and Schedule III of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI LODR Regulations”).

Kindly take the same on your record.

Thanking you,

Yours faithfully,
For AIA Engineering Limited

S. N. Jetheliya
